

## **PRESS RELEASE**

### **Fed Reporter, Inc. to provide Software for Call Reporting to Fiserv**

Agoura Hills, CA, December 31, 2011 – Fed Reporter, Inc. today announced a strategic partnership with Fiserv, Inc. (NASDAQ:FISV), a leading global provider of financial services technology solutions. Fed Reporter's popular SmartCall™ regulatory reporting product will be available to Fiserv clients using the Premier®, Precision® and Cleartouch® bank platforms. SmartCall, an advanced FFIEC-certified Call Report software system, enables financial institutions to more efficiently prepare and submit their required quarterly financial statement of condition to U.S. banking regulatory agencies. The solution is used successfully by more than 1,000 financial institutions of all sizes operating in the U.S.

SmartCall's ease-of-use and advanced technology make it a popular choice for banks looking for assistance with increasingly complex regulatory reporting requirements. The agreement enables reporting banks to integrate with bank platforms from Fiserv, improving processes for comprehensive Call Report preparation and submission.

"As regulatory issues take more and more of our clients' time and energy, solutions like SmartCall provide a way to automatically capture general ledger, loan and deposit data directly from a financial institution's core accounting system," said Teri Carstensen, president of Bank Solutions, Fiserv. "By offering our clients this customizable solution that integrates with Premier, Precision and Cleartouch bank platforms from Fiserv, we can provide that functionality, helping make preparation and verification of the Call Report faster and easier."

SmartCall features the SmartWindow – an at-a-glance presentation of the line items that apply to an individual financial institution. Plus, SmartCall keeps bank data synchronized with the FFIEC regulatory Central Data Repository (CDR), ensuring that a bank's specific filing requirements are up-to-date and that completed Call Report information is reported according to the most recent FFIEC specifications.

"Fiserv provides core accounting software to more U.S. banks than any other technology provider. With this partnership, we are committed to working with them to provide the very best in regulatory reporting software

and service to Fiserv clients,” said Phil Templer, president of Fed Reporter. “Our SmartCall Call Report software is designed to work closely with Fiserv bank platforms, enabling banks to prepare and submit their FFIEC Call Report faster, easier and more accurately than ever before.”
