Smart RC-R Basel III™

Let our new Smart RC-R Basel III module analyze and calculate the required new RC-R Basel III Risk Based Capital schedule for as low as \$99.00 a year*

[Click here to Order Smart RC-R Basel III](#)

Eliminate the guesswork in over 80 pages of confusing instructions and multitudes of complex calculations. Order now and stay ahead of the regulators with our new Smart RC-R Basel III.

Includes these features and more

- ★ Import your Call Report data to automatically calculate the Basel III Capital Ratios including the new Common Equity Tier 1 Ratio CET1.
- ★ Determine the impact of opting in or out of the inclusion of AOCI (Accumulated Other Comprehensive Income) in Bank Capital. A one-time election must be made with the March 2015 Call Report.
- ★ See the impact on Risk Weighted Assets from Past Due 90 days and Nonaccrual loans for other than 1-4 family residential properties loans and assets that are not fully deducted from capital.
- ★ Calculate your bank's Capital Buffer.

The Smart RC-R BASEL III module will automatically import your Bank's Call Report data on a quarterly basis and will display all of the elements that are involved in calculating Tier 1 and Tier 2 Capital including the transition percentages that are now in effect.

Smart RC-R BASEL III Pricing: * 0 - 100 Mil Assets - \$99, 100 - 300 Mil Assets - \$124, Over 300 Mill Assets -\$149 - Includes Quarterly Update

NO Long Term contract required. We offer Year to Year renewals, lower fees and better service.
